Report of Independent Auditors

To the Partners of Millennium Trading Co., L.P.

We have audited the accompanying statement of financial condition of Millennium Trading Co., L.P. (the "Company") as of December 31, 2002. This statement of financial condition is the responsibility of the Company's management. Our responsibility is to express an opinion on the statement of financial condition based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the statement of financial condition. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of Millennium Trading Co., L.P. at December 31, 2002 in conformity with accounting principles generally accepted in the United States.

See accompanying notes.

Notes to Statement of Financial Condition

December 31, 2002

1. Organization

Millennium Trading Co., L.P. (the "Company"), a New York limited partnership, is a registered broker-dealer under the Securities Exchange Act of 1934 and is a member of the American Stock Exchange. The Company engages in proprietary securities transactions and clears all trades on a fully disclosed basis through its clearing broker.

The Company is owned by Grandview, L.L.C., a wholly owned subsidiary of Millennium Partners, L.P.

2. Significant Accounting Policies

Transactions in securities and related revenue and expenses are recorded on a trade date basis.

The preparation of the statement of financial condition in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the statement of financial condition and accompanying notes. Actual results could differ from those estimates.

Securities owned and securities sold, not yet purchased are recorded at market value. Market value is generally based on quoted market prices. If quoted market prices are not available, fair value is determined based upon other relevant factors including cost, valuation of similar instruments, and the financial condition of the issuer.

3. Receivable from Clearing Organization

Receivable from clearing organizations represent cash and margin debt balances with the Company's clearing brokers, proceeds from securities sold short, and amounts receivable or payable for securities transactions that have not settled at December 31, 2002. The cash at the clearing brokers related to securities sold short is restricted.

A source of the Company's short-term financing is provided by its clearing brokers from which it can borrow against its proprietary inventory positions, subject to collateral maintenance requirements

4. Related Party Transactions

Certain affiliates provide trading and accounting services and incur administrative expenses on the Company's behalf without charge.

Notes to Statement of Financial Condition (continued)

5. Securities Owned and Securities Sold, Not Yet Purchased

Securities owned and securities sold, not yet purchased consist of equities at December 31, 2002.

Securities owned are pledged to the clearing broker on terms which permit the clearing broker to sell or repledge the securities to others subject to certain limitations.

6. Net Capital Requirement

The Company is subject to the Securities and Exchange Commission's Uniform Net Capital Rule 15c3-1 (the "Rule") which specifies, among other requirements, minimum net capital requirements for registered broker-dealers. The Company has elected to compute its net capital under the alternative method permitted by the Rule which requires, among other things, that the Company maintain minimum net capital, as defined, of \$250,000. At December 31, 2002, the Company had net capital of \$5,832,640 which exceeded its requirements by \$5,582,640.

Certain advances, payments and other equity withdrawals are restricted by the provisions of the Rules of the Securities and Exchange Commission.

Under an arrangement with the clearing broker, the Company is required to maintain certain minimum levels of capital and comply with other financial ratio requirements. At December 31, 2002, the Company was in compliance with all such requirements.

7. Income Taxes

No federal, state or local income taxes have been provided at the Company level since the partners are individually liable for the taxes on their share of the Company's income or loss.

8. Concentration of Credit Risk

The Company clears its securities transactions through a major financial services firm.

9. Fair Value of Financial Instruments

The fair value of the Company's assets and liabilities, which qualify as financial instruments under SFAS No. 107, "Disclosures About Fair Value of Financial Instruments" approximates the carrying amounts presented in the statement of financial condition.
